

## FEARED MATAGALPA FACES FAMINE AND PERIL FROM REBELS

No Word Received From  
Troops Sent to Interior to  
Rescue Americans.

Although there is a small army of marines in Nicaragua, the largest force being centered at Managua, no word has been received from the small detachment of troops sent to the interior town of Matagalpa several days ago to rescue the American settlement there.

Officials here fear the besieged settlement is out of food and that the rebels are harassing them.

There are a number of other foreigners in Matagalpa and the latest news from that place was received several weeks ago from the British vice consul, who said conditions there were horrible.

As yet the British government has made no representations to this country demanding adequate protection for its subjects.

Little fear is entertained for the Americans in Managua, the capital of Nicaragua, as a large force of marines has probably reached there by this time, but Matagalpa is more than two hundred miles inland and the mountainous country makes traveling exceedingly difficult.

It is said that at least a week is required to make the 200-mile trip.

There are in Matagalpa possibly one hundred Americans who have gone there seeking fortunes in the coffee business.

All communication with Matagalpa has been cut off for some months, and grave fears are entertained by the authorities for the welfare of the Americans. The town is one of the strongest strongholds of the revolutionists, who look with disfavor upon everyone not actively in sympathy with their cause. It is believed, however, that the troops should have reached the place by now and information concerning the condition of the Americans should be received within a day or two, at most.

## Women to Listen To Tariff Speech

The District division of the Women's National Democratic League will meet at Wilson and Marshall headquarters in the Southern building, tonight, to hear an address on "Women and the Tariff," by H. Martin Williams, of Missouri, and to complete the organization. In a business meeting, to be held at 7:30, officers will be elected and a constitution adopted. The public meeting will begin at 8:30.

The solicitation of campaign funds has been carried forward for the last month. As soon as the organization is completed this work will be pressed more vigorously, and a report will be made in about two weeks of the amount of campaign funds so far received by the committee.

## Plan to Entertain Two Conventions This Month

The joint committee of the Chamber of Commerce and Board of Trade on arrangements for the Fifteenth International Congress on Hygiene and Demography and the convention of the American Public Health Association this month held a short meeting at the rooms of the Board of Trade this afternoon and adjourned until Saturday at noon. Edmund S. Wolfe, acting chairman of the finance subcommittee, will make a report on the amount of funds received in response to the appeals of the Chamber and board for subscriptions to the entertainment fund.

## FOREIGN CHEMISTS INSPECT BUREAU

Delegates to International Congress Here Receive Letters  
Of Introduction to Leaders in Profession in This  
Country and Expect to Get Valuable Hints.

Not within its history has the Bureau of Chemistry been examined as closely as within the last day, practically every foreign delegate to the eighth International Congress of Applied Chemistry visiting the bureau and going over it "with a fine-toothed comb."

The heads of divisions and their immediate assistants have been called upon not only to exhibit their work, but have dictated scores of letters of introduction to chemists who expect before returning to Europe to visit most of the large food-producing plants in the country. The utmost curiosity is manifested by many of the scientists to see how America, the youngest, goes about it to produce wealth which has made Europe marvel.

A number of foreign chemists will visit factories with a view to determining what methods might be applied with advantage in Europe. The letters from Washington chemists will be used by the visitors to the scientific sessions in New York are completed.

The visiting chemists will return to New York this afternoon and tonight in time to be present when the scientific sessions begin tomorrow morning.

The delegates were received by President Taft late yesterday afternoon. A garden party in the White House grounds had been planned, and, although the sky was overcast, the gathering was a success. The visitors were received in the East Room, where President Taft, seated in a wicker chair, because a lame ankle would not permit him to stand, greeted the guests and made a speech of welcome, in which he paid some attention to the question of patent rights. Congress long considered changes in the patent laws during the last session, but accomplished nothing. "I observe that in your various divisions," said the President, referring to the New York program, "you discuss different questions not peculiarly chemical. I note a consideration of the questions of patents—what patents ought to include and what kind of a patent system ought to be adopted by each government. Patents have played a very great part in the development of the United States, and we have given to a patent a very valuable monopoly for the purpose of discovering by their industries new methods of accomplishing useful results. There is certainly great room for improvement in the machinery of our Patent Office, and it would be well if a value could be placed in the issuing of a patent as an evidence of real property."

After this speech President Taft took up his position in a chair on the lawn, where he shook hands with the delegates. The gathering was variously dressed, business suits touching elbows with Prince Alberts among the men, caps mingling with silk ties, while the feminine guests presented the heterogeneous and yet harmonious picture of a group of women in summer attire.

The reception at the National Museum last night was more formal, the delegates appearing in evening clothes. Many of them wore their brilliant official decorations. The March Band, under Director Santelmann, provided music both at the White House and the National Museum. Miss Agnes Hope Pillsbury, pianist, appeared at the White House and Mrs. Bertha Lincoln Heustis sang as a part of the program at the museum.

Dr. H. W. Wiley and Mrs. Wiley entertained the delegates.

Boarding School for Girls that offers exceptional advantages at the lowest possible rates.

SISTERS OF THE HOLY CROSS.

## NOTED CHEMIST CAPTIVATED BY CAPITAL SIGHTS

Sir William Ramsay, of London,  
Pleased With  
American Tour.

Washington has completely captivated Sir William Ramsay, of London, one of the most distinguished of the noted chemists attending the Congress of Applied Chemistry.

"Washington and Boston are, I think, the most beautiful cities in America. They are quite different. The beautifully finished appearance of Washington is most pleasing. Other cities show their unfinished state at once, but Washington is perfect."

"Boston, though quite different, I thoroughly enjoy. This is not my first visit here and I have seen many cities. These two, of all, fascinate me."

"The opinion of the famous English chemist was offered voluntarily. He had not been asked, after the fashion of boasters of home towns, what he thought of Washington. His hearty expression was part of a brief interview in which his statements followed the paths he chose."

"American men are very much in a hurry," he said. "They seem to not have time to do anything but work. I don't know. Washington on that account is unusual."

Sir William Ramsay, Lady Ramsay, Sir Kuntz, Mr. Foster, Mr. and Mrs. Purat, Mr. and Mrs. Perkins, of Manchester, England, and Dr. Leitzel, of Vienna, went to Mt. Vernon today in a private launch as the guests of William J. Matheson, treasurer of the Congress of Applied Chemistry, and officer of the General Chemical Company.

Says Plans Are Perfect.

Dr. Kuntz has been a figure of peculiar interest at the congress, not only because of his all-around ability, but because his word is the last word on diamonds.

"The arrangements for the congress have so far been perfect," said Dr. Kuntz today. "Much of this is due to the unselfish and devoted work of Dr. William Day. I only hope that we may have his distinguished aid during the remainder of the congress."

Dr. Kuntz is accompanied by his daughter, whose costume at the formal social events of yesterday was regarded as quite the most exquisite to be seen.

Many of the foreign delegates went to Mt. Vernon today, impelled not only by their desire to see this historic place, but by their sense of propriety, possibly more formal than that of Americans, which bids them make the pilgrimage as a courtesy to the country which is now their host.

Sight seeing automobiles were employed to take other parties to the bureau of Standards, to the Department of Agriculture, and for a general view of the city, the tickets which tickets could be procured for these excursions were installed in the red room at the hotel.

Blow Postoffice Safe,  
But Find Cash Gone

FITCHBURG, Mass., Sept. 4.—Four masked men dynamited the postoffice safe at East Pepperell, but because of the fact that Postmaster F. A. Reynolds took the cash to his home last night, they got nothing.

The four men, who exploded not only wrecked the postoffice but blew the mail boxes to pieces.

## EDUCATIONAL

### GEORGETOWN UNIVERSITY SCHOOL OF LAW

It utilizes to the full the advantages which make the National Capital the greatest center of legal learning in the United States. Three-year course, leading to the degree of LL. B. Fourth-year or post-graduate course, leading to the degree of LL. M. Full course on Patent Law without extra cost. All sessions held in the evenings, giving students an opportunity to be self-supporting or to have practical training in law offices.

Reopens Wednesday, October 2. Tuition, \$100.00. Office will be open for registrations, consultation, etc., from 10 a. m. to 5:30 p. m. Further information or catalogues may be obtained by addressing:

HUGH J. FEGAN, Secretary,  
GEORGETOWN LAW SCHOOL,  
506 E St. N. W. Main 7203.

### The National Cathedral School for Boys

An Episcopal country school, occupying its beautiful new home on

MT. ST. ALBAN

A Preparatory School, offering exceptional advantages. The school building is one of the most modern and best equipped in the country. The faculty comprises college graduates of recognized ability. Boarding and day departments—boys from 7 to 19 years.

Full term opens September 26, 1912. The Bishop of Washington, president of board of trustees.

E. L. GREGG, Headmaster.

### COLUMBIA SCHOOL OF DRAFTING

Full term begins Sept. 16. Evening instruction. We offer the following courses:

ARCHITECTURAL DRAFTING.  
MECHANICAL DRAFTING.  
PATENT OFFICE DRAFTING.  
STRUCTURAL DRAFTING.  
TOPOGRAPHIC DRAFTING.  
MACHINE DESIGN.  
ARCHITECTURAL DESIGN.  
STRUCTURAL DESIGN.  
PATENT SPECIFICATIONS.  
ARCHITECTURAL SPECIFICATIONS.  
ENGINEERING SPECIFICATIONS.

To attain success in this practical age, you should SPECIALIZE. Write or phone for our latest catalogue, or call on us, 743 P. St. N. W. Columbia School of Drafting, McLaughlin Bldg., 10th and G sts. N. W.

NATIONAL CATHEDRAL  
SCHOOL FOR GIRLS.  
Mt. St. Alban, Washington, D. C.  
Opens September 26, 1912.

Situated in the grounds of the cathedral close of 45 acres, overlooking the city of Washington.

Fireproof building, accommodating 100 boarding pupils; capable of giving a complete education to college.

Special advantages for day pupils. Coach leaves Dupont Circle at 8:30 a. m. returns 5:30 p. m. Cars leave Georgetown at 8:30 a. m. and 5:30 p. m.

Full information on request.

## Gets Little Sleep In Week's Course

WEST ORANGE, N. J., Sept. 5.—Despite his advancing years, Thomas A. Edison was so busy last week that he found time for less than twenty-two hours' sleep in the course of the six work days. By his own accounting, he devoted 122 hours of the 144 to hard work.

This apurt of energy was inspired by the need of finishing touches on a new phonograph. Today he says that the invention is about perfected.

## Denies Engagement Of Morgan's Daughter

PARIS, Sept. 5.—The New York Times correspondent received the following note from an intimate woman friend of Miss Anne Morgan, daughter of J. Pierpont Morgan:

"There is not a vestige of truth in any report concerning an engagement between Count Boil de Castellane and Miss Anne Morgan. Miss Morgan asks me to deny this story officially and finally."
